

cesar_surface_meteo_lal_t10

Version Date Description
1.0 09-dec-2009 Creation

Documentation on the CESAR in-situ observational program in general and the parameters in this dataset in particular can be downloaded as a pdf-file from:

http://projects.knmi.nl/cabauw/insitu/observations/documentation/Cabauw_TR/Cabauw_TR.pdf

For easy access it is advised to open the document with the navigation panel visible.

For gapfilled datasets (lc1) also consult the pdf file at:

http://projects.knmi.nl/cabauw/insitu/observations/documentation/gapfilling/cabcon_gapfilling.pdf

Further information including near real time display can be found via:

<http://projects.knmi.nl/cabauw/insitu/index2.htm>

Below follows a header dump of one of the NetCdf dataset files.
Refer to the attribute long_name of the variables for explanation.

>>>> Header dump of NetCdf file <<<<<
